Symmetry

noun

noun: symmetry

the quality of being made up of exactly similar parts facing each other or around an axis.

My idea was to incorporate two shapes coming together to create a shape. The Sunset offers a warm contrast to the stark silhouette.

Let someone help,
talk it through.
I know it's hard
But let me help you.

Let Someone help

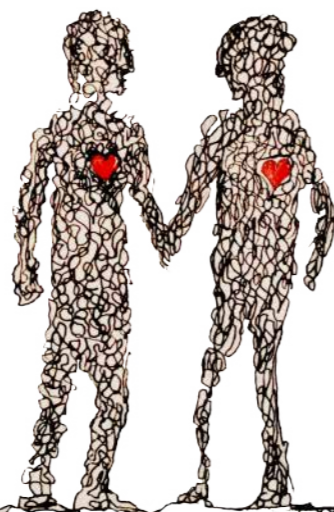

My first reaction to the brief was to utilise my writing skills. During a trip to the park and a few mornings in the studio I wrote two poems. In an effort to include these in my designs I took a verse and applied some simple typography.

Let someone help,
talk it through.
I know it's hard
But let me help you.
