

The 11th Palliative Care Congress Glasgow 2016

Session Abstract – Pain Update Masterclass

The evidence for treatment approaches for neuropathic pain in cancer

Professor Mike Bennett

Thursday 10 March 2016

1120 – 1220 (*Mike's presentation from 1200 - 1220*)

This session will cover the rationale and the evidence base for drug and non-drug interventions for neuropathic pain in cancer, distinguishing between treatment-related and tumour-related pains. The discussion will include clinical and methodological limitations, and conclude with practical guidance for clinicians.
